David Gadyan

Senior Machine Learning Engineer | LLM & Agentic Systems | MLOps on AWS/Kubernetes

Email: david.gadyan@bse.eu
Linkedin: linkedin.com/in/davidgadyan
Upwork: upwork.com/freelancers/davidgadyan
Portfolio: davidgadyan.com/portfolio

ML engineer and data scientist with 8 years, 180+ delivered projects and 50+ long-term clients (Upwork Expert-Vetted, top 1%). Ships production LLM systems — RAG, LangChain/LangGraph agents with MCP tool use, FastAPI on Docker/Kubernetes/AWS — incl. a HIPAA-compliant underwriting assistant that cut turnaround from days to minutes.

PROFESSIONAL EXPERIENCE

Upwork (Freelancer) — **Remote · Yerevan, Armenia**
Data Scientist / ML Engineer — independent consultant — 01/2018 – Present

- 8 years and 180+ projects for 100+ clients worldwide (50+ long-term); Upwork Expert-Vetted (top 1% of the platform), $500k+ earned, 8,700+ hours.
- **Virgil.ai — agentic health-insurance assistant** — Built the LLM backend (LangChain + FastAPI + OpenAI, MCP tools, Docker/Kubernetes on AWS) that onboards US users, automates medication-coverage lookup and underwriting under HIPAA controls; underwriting cut from days to minutes.
- **Document OCR & data extraction** — Replaced manual entry of driver licences and insurance cards at a healthcare booking platform with a structured-extraction REST API; benchmarked YOLO/NLP models vs AWS Textract, shipped Textract + regex, latency ~10 s → under 5 s per image.
- **Regulatory RAG assistant** — Shipped a LangChain + GPT-4 + Pinecone RAG chatbot over multi-jurisdiction crypto regulation: 4-format ingestion with OCR of scanned PDFs, sub-second retrieval, inline citations; delivered with Docker config.
- **LangGraph multi-agent document review** — Architected a LangChain + LangGraph workflow on Gemini for a law firm's due diligence: user-defined verification checks, external ABN/ACN API validation, long-contract processing, auto-generated Word reports and a replication package.
- **Fine-tuned open-source LLM service** — Fine-tuned Mistral 7B (HuggingFace + LangChain) where hosted APIs were unsuitable; served it as a FastAPI REST API on rented GPUs (Paperspace, DigitalOcean, GCP) over 3 contracts.

Ernst & Young — **Yerevan, Armenia**
Tax Accountant — 10/2017 – 05/2018

- Tax compliance, projections and internal-control reviews for a ~$10M-turnover client; 3+ concurrent engagements.

EDUCATION

Barcelona School of Economics — **Barcelona, Spain**
MSc Data Science for Decision Making (graduated with honours) — 09/2022 – 08/2023
Relevant courses: Deep Learning, Computational Machine Learning, Data Visualization · degree awarded by Universitat Pompeu Fabra and Universitat Autònoma de Barcelona

American University of Armenia — **Yerevan, Armenia**
Master of Business Administration — Finance, Data Science / Applications of Data Science — 09/2017 – 06/2020

LANGUAGES & TECHNICAL SKILLS

LLM & agents: LangChain, LangGraph, RAG (Pinecone vector store), MCP tool use, OpenAI / Gemini / Claude APIs, prompt & few-shot design, HuggingFace fine-tuning (Mistral 7B), retrieval QA

Documents & vision: AWS Textract, OCR pipelines, structured field extraction, YOLO, BERT, U-Net

Data & infra: Python, FastAPI, SQL (PostgreSQL, MySQL, BigQuery), ETL pipelines, Docker, Kubernetes, AWS, GCP

ML & compliance: XGBoost, scikit-learn, LSTM, PCA/clustering · HIPAA-controlled data handling, GDPR

Languages: English (Fluent), Russian (Fluent), Armenian (Native), Spanish (Conversational)

ADDITIONAL INFORMATION

- *Upwork Expert-Vetted (top 1% of 10+ million developers), Toptal Developer · previously Big-4 (EY) · remote-first delivery with documentation and replication packages for client teams*
